

Project # 2 - A Tribute to Fan Ho (12 Photos)

By: Brianna Mugford

INTRODUCTION

For this project, you are required to submit 12 high quality, bring-a-tear-to-your-photography-teacher's-eye images.

Your aim is to further expand your understanding of your chosen elements (3 to be exact in the Part 1 portion of this project). Replace the black boxes with your own processed .jpgs (please note, the images doesn't have to be rectangular or landscape mode only. Portrait mode is acceptable too).

If you're an online student and have only access to your phone, you may still shoot your images as a .jpg OR Raw (if your phone allows it). Upload your shot to Drive and then from Drive, open and edit your images in Photopea. Steps in processing can be found in the Part 2 post on our class site.

In-class students must shoot their images using a DSLR, in full manual and Raw format only. You are all to use this same template to organize and submit your work. Please don't change the typeface (ie fonts) as you will lose marks on formatting!

Element # 1: Perspective and Depth

Title: Calgary Cityscape

I sat down on one of the benches between these two buildings where I could see a potentially an amazing photo I took 3 or 4 photos of this picture but I couldn't figure out why they weren't working then I switched positions by moving to a different angle to get the picture I wanted to exceed in.

Element # 1: Perspective and Depth

Title: Banff Landscape 2021

I chose to do a landscape of these mountains and the lake in Banff because I could see the potential in different photos from different angles moving up and down and even using a different perspective of where to take the photo. Like the first one it took me many tries to figure out a picture I liked using different ways to move my phone around, but at the end of all the pictures I had this was the one that I thought would be an amazing perspective and depth photo with the mountains and the lake.

Element # 1: Perspective and Depth

Title: Canmore Portrait

When I went to visit my family in Alberta me and my aunt went to this little town called Canmore where there are different trails, your surroundings are mountains, trees, the wildlife that you see walking around while you're out there just going for a mini walk.

Element # 1: Perspective and Depth

Title: Muskoka Landscape 2021

Sitting on my cousins boat when the leaves are different colours and just watching them fall and have the reflection off of the trees onto the water to make a good reflection to see

Element # 2: Contrast

Title: Lemons

Since I chose to do Lemons for my first photo on my contrast I wanted to give it that still life look and just capture their still life. I did many different things to capture the picture that I was most interested in and happy with as I was taking pictures of Lemons.

Element # 2: Contrast

Title: Butterfly Portrait

I chose to do a butterfly portrait because to me it symbolizes an angel and hope. I was just turned 7 when my grandmother had died in January of 2012 and she was diagnosed with Alzheimer's as it progressed she forgot who my parents were and my grandfather was but she never forgot who I was even if she didn't know where she was, my grandmother was always there to point out "This is my granddaughter". A butterfly always has a special meaning to me and knowing that I have my grandmother's presence.

Element # 2: Contrast

Title: Fruit Bowl

For this photograph I chose to do a bowl of fruit in my aunt's house in Alberta where she had a big bowl with a bunch of different fruits. I wanted this picture because of the reflection off of the counter is on the bowl and for example the apples I chose to do a little darker instead of them being very light.

Element # 2: Contrast

Title: Sunset Landscape

The sunset landscape reminded me of the summer and how the clouds are looking like a shelf-cloud. Where the clouds are it reminds me of when I'm at the cottage in Wasaga Beach and the sunset is sitting nice on the water with Collingwood and Blue Mountain in the background.

Element # 3:Balance

Title: Fall

This photo is on the Wesley Brooks Conservation Area in Newmarket where it is a walking +biking and a running trail with lakes and playgrounds around it and it is nice in the summer but it is even more beautiful in the fall just as the leaves are changing colors.

Element # 3:Balance

Title: Floating Deck

This floating dock is at my Uncle Jackson who is just off of the CFB North Bay as he is in the military but this is his floating dock just down at his house. The floating dock that I took a picture of reminds me of summer, relaxing and a free stress zone especially going on the weekend to relax after school.

Element # 3: Balance

Title: Inukshuk Portrait

This Little Baby Innuksuk on the beachfront in Balm Beach, Tiny, Ontario. A random family that were tourists in Balm Beach made this little Innuksuk so once they left I took a picture of the Innuksuk close up and decided to blur the background by using portrait mode on my iPhone.

Element # 3:Balance

Title: Blue Mountain Village

Blue Mountain Village is the favorite fall and summer thing that I do every year with my family and friends to just relax and shop around with and have a good time with one another. I've been going to Blue Mountain for pretty much my whole life it is my favorite place to go to when I need to relax. The way that I chose to do this was take many different pictures from different part of the village in order to get the mountains.
