

INTRODUCTION

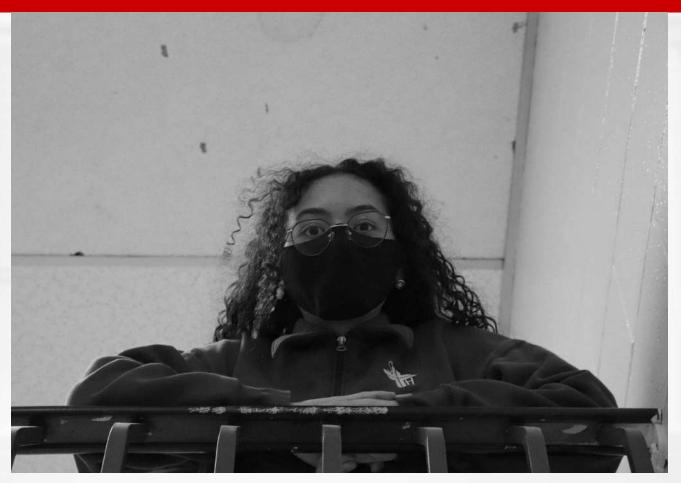

For our next set of tasks (I call them "projects"), we will be getting back to shooting images (be it from your phone, point and shoot or DSLR. As a refresher, here's a number of things you need to keep in mind: **Focal Lengths, Aperture, and Shutter Speed.**

As far as image processing is concerned (B&W, Selective Colour, Muted Colours, Sepia, and Cross-Process), you are to use either **Photoshop** or **Photopea** and follow the theme instructions carefully. For more detailed info on the project, please click <u>here</u>.
