

**Project # 1:** Are-We-Out-Of-The-Pandemic-Yet? Pics

## INTRODUCTION

For our next set of tasks (I call them “projects”), we will be getting back to shooting images (be it from your phone, point and shoot or DSLR). As a refresher, here’s a number of things you need to keep in mind: **Focal Lengths, Aperture, and Shutter Speed.**

As far as image processing is concerned (B&W, Selective Colour, Muted Colours, Sepia, and Cross-Process), you are to use either **Photoshop** or **Photopea** and follow the theme instructions carefully. For more detailed info on the project, please click [here](#).

The Great Hall of Nations is a  
reproduction of the citizenship of  
the student body and a celebration  
of the positive impact that  
students from different countries  
have on the Sacred Heart  
experience.
