

STUDENT EXPECTATIONS

01 PLATFORM

The course can be completed anywhere with an internet connection. Teachers will be using the D2L Brightspace VLE, provided by the Ontario Ministry of Education. It is best to use a computer or a Chromebook for your course work.

TIME COMMITMENT

02

Students are required to log into the course every day from Monday to Friday. A significant time commitment is required, yet there is some flexibility with the hours that a student is online during the day. A minimum of 6 hours of course work per day can be expected.

03 COMMUNICATION

Students and teachers communicate **virtually** through Google Meets, ycdsbk12 Gmail accounts, and D2L Brightspace mail, chat, and discussion tools. Communication will take place between the hours of 8:30am and 3:00pm.

ASSESSMENT & EVALUATION

04

Assessment and evaluation information can be found on the Course Information Sheet provided by your teacher. There will not be an exam **Culminating Performance Task (CPT)**. The weighting of the CPT will be communicated by your teacher.

05 ACADEMIC HONESTY

The expectation in summer school is that your work is original, properly referenced, and done to the best of your ability. The use of AI (Chat GPT, etc.) is not recommended for evaluated tasks as it does not produce or reflect original work and should only be used in direct consultation with your teacher. Please review the [YCDSB Policy on Academic Honesty](#) in eLearning.
